## COMPACT FOLDING

Folds flat for easy storage

# Chrome Three Tier Concertina Plus...

Sturdy strong and stable Indoor dryer with 1.5m - 4.9ft of drying space

## PLASTIC JOINTS

2 Piece plastic joints give smooth reliable operation

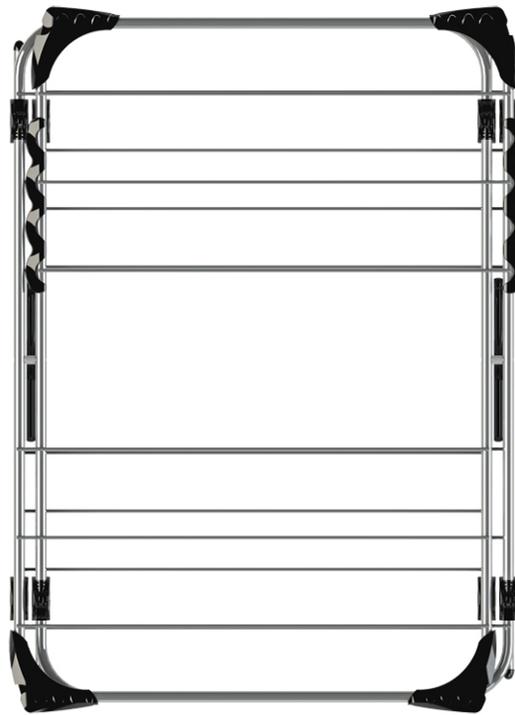

## FLIP OUT CORNER CAPS

2 Piece plastic corner caps designed for hangers and long drop items

## SOCKIES

Designed to help dry socks and provide more drying space

# Three Tier Concertina Plus...

Sturdy strong and stable Indoor dryer with 15m - 49ft of drying space

## PLASTIC JOINTS

2 Piece plastic joints give smooth reliable operation

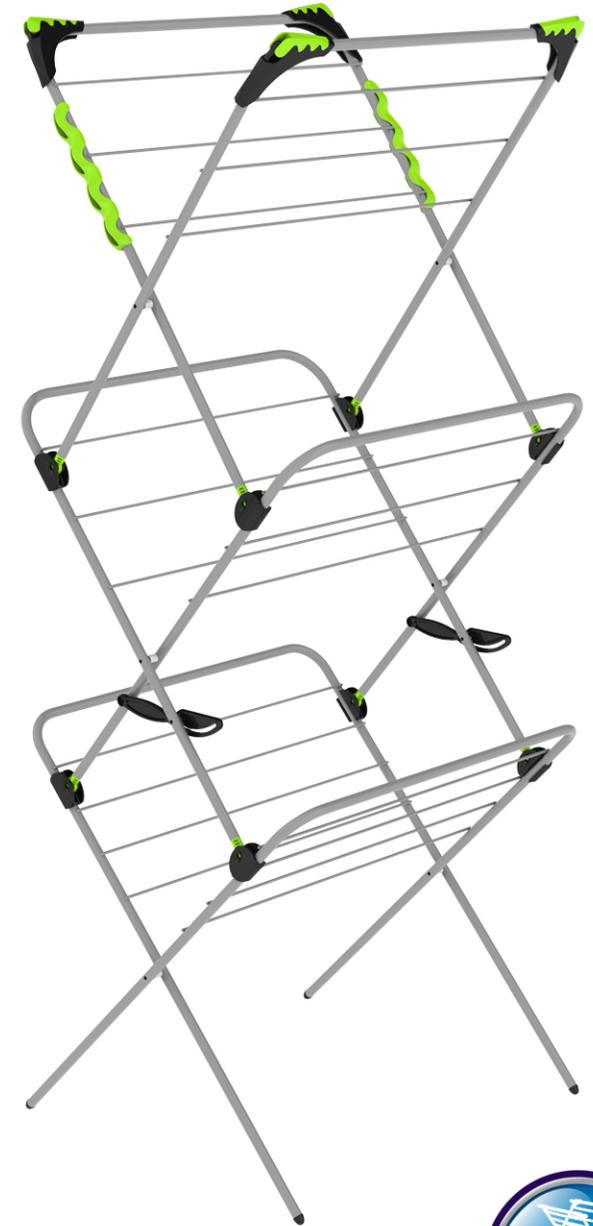

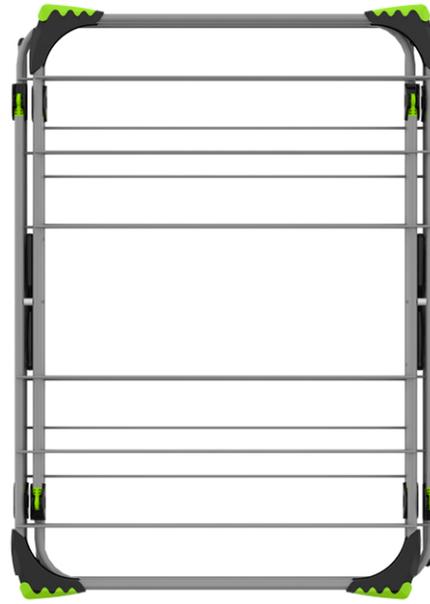

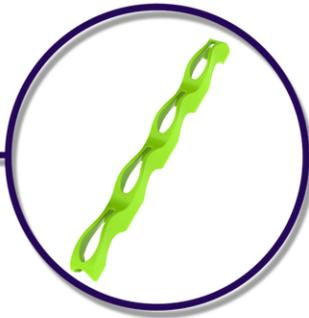

## FLIP OUT CORNER CAPS

2 Piece plastic corner caps designed for hangers and long drop items

## SOCKIES

Designed to help dry socks and provide more drying space

# Easy Loader...

Stable and strong 18m - 59ft easy loader with flat dry shelf and easy loading sections

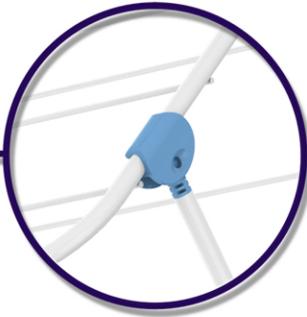

## AUTO LOCK MECHANISM

Simple, safe and easy to use

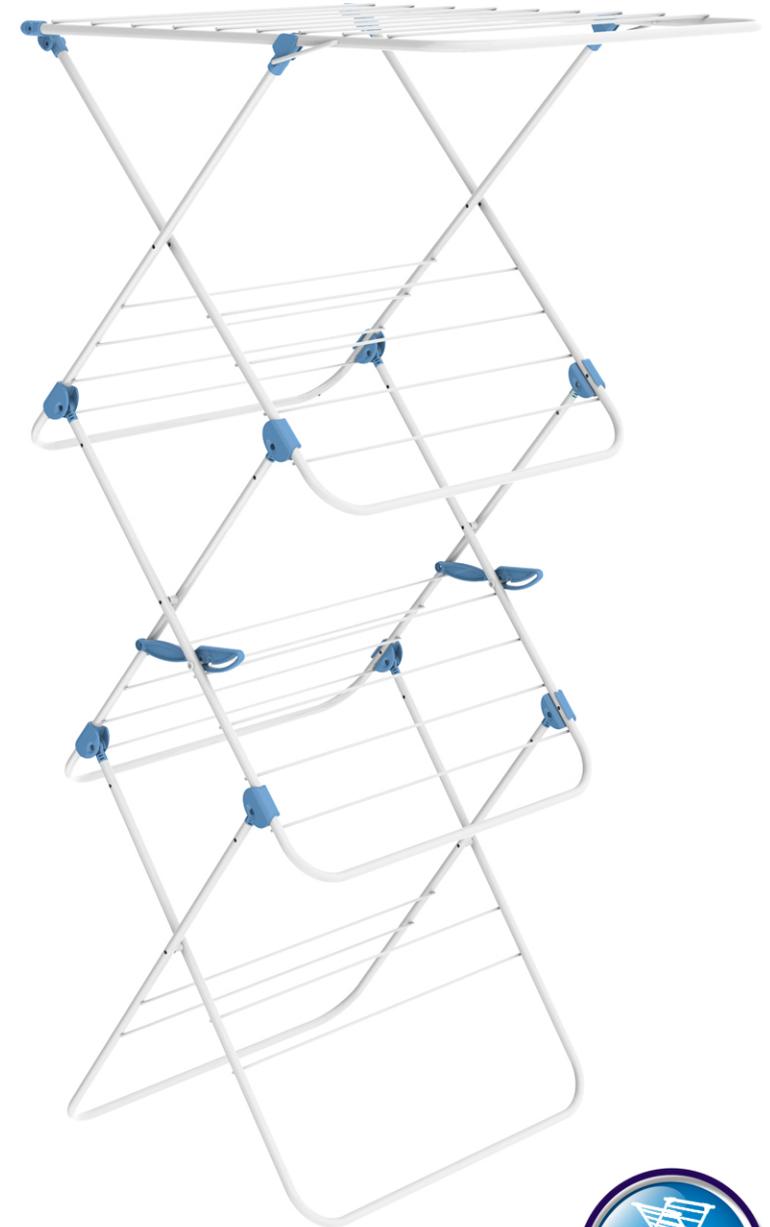

## PLASTIC JOINTS

2 peice plastic joints give smooth reliable operation

## COMPACT FOLDING

Folds flat for easy storage

Stable and strong 14m - 46ft x-wing. Multi-positional arm heights for all drying needs

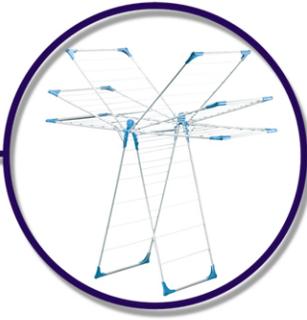

**CORNER HANGERS**

Designed for coat hangers for long drop items

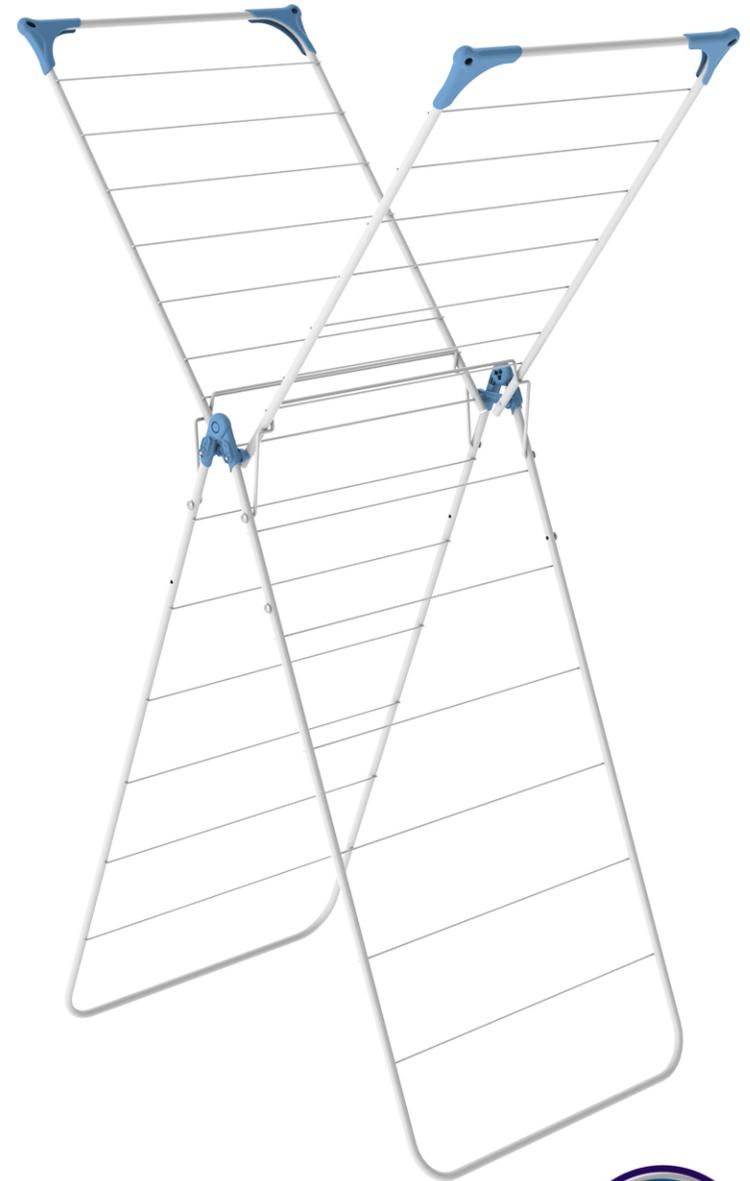

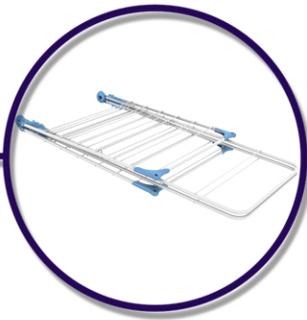

**ADJUSTABLE ARM HEIGHT**

6 adjustable arm height settings

**COMPACT FOLDING**

Folds flat for easy storage

Sturdy strong and stable Indoor dryer with 17m - 56ft of drying space

### CORNER HANGERS

Designed specifically for coat hangers

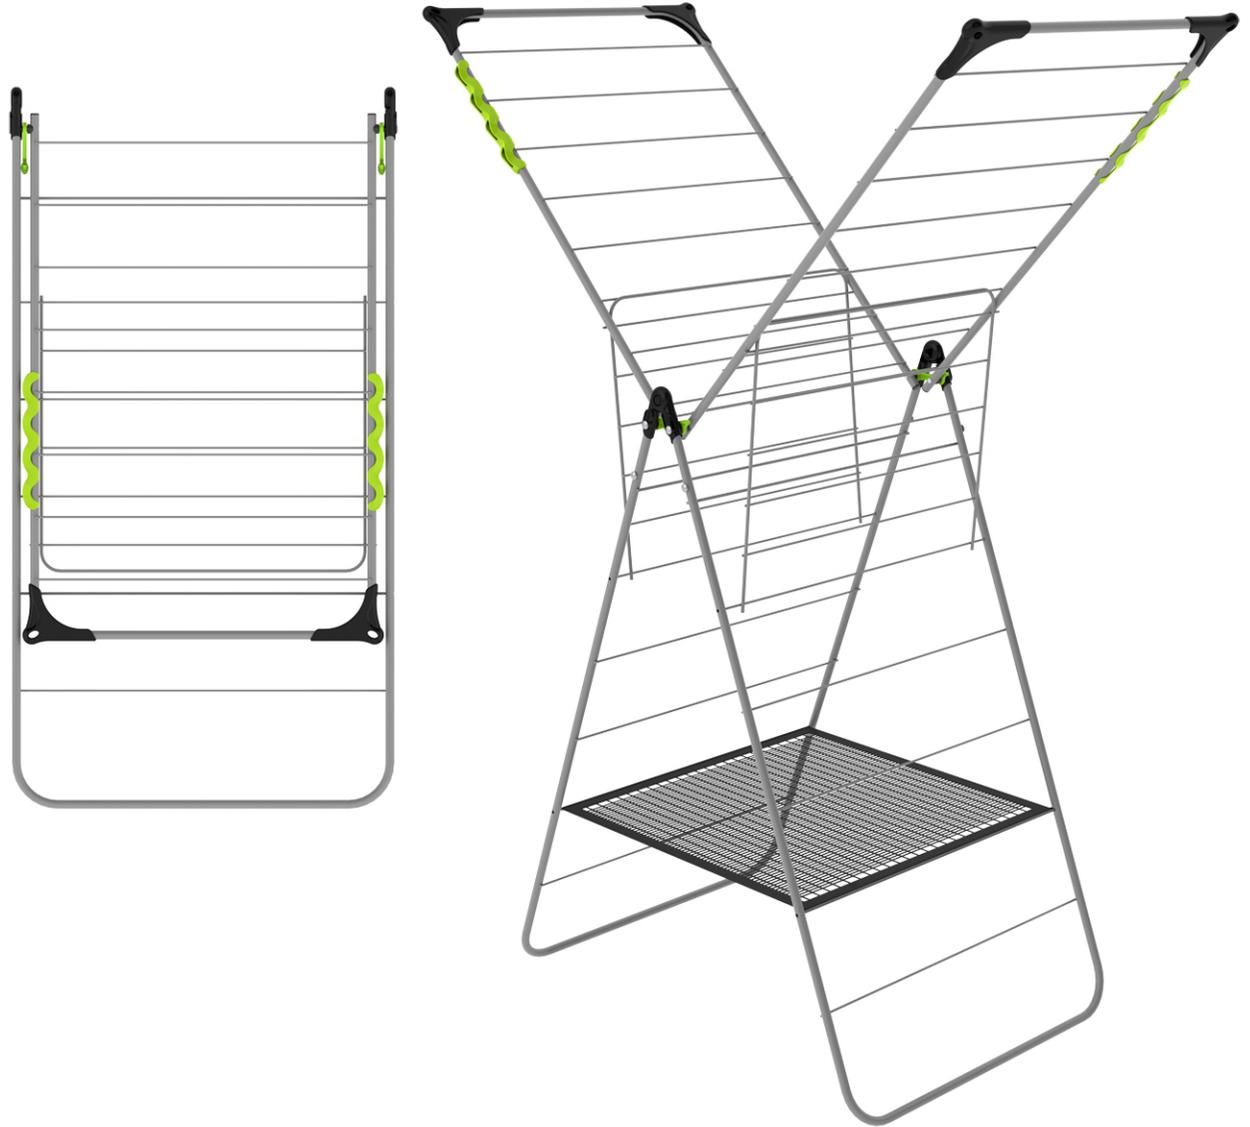

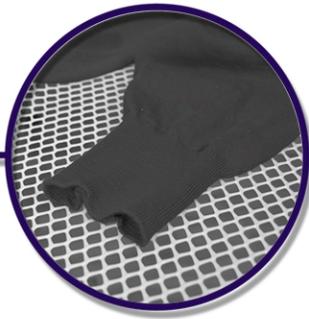

### SOCKIES

Provides extra drying space for socks

### FLAT DRY MESH

Ideal for storing dry clothes or providing space to dry flat dry garments

A versatile product with a large 25m - 82ft of drying space. Easy open and close action for simple use

## MESH FLAT DRY

Mesh drying system for items that require flat drying

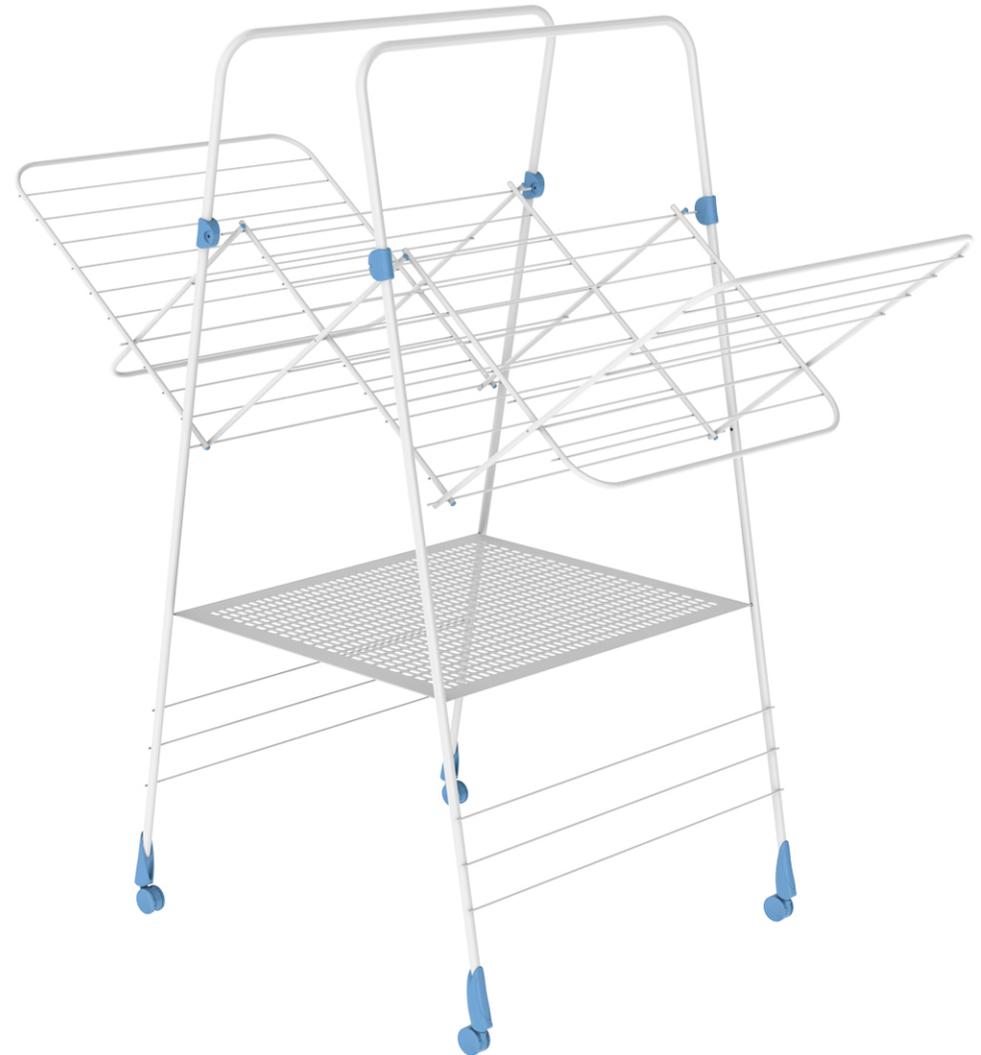

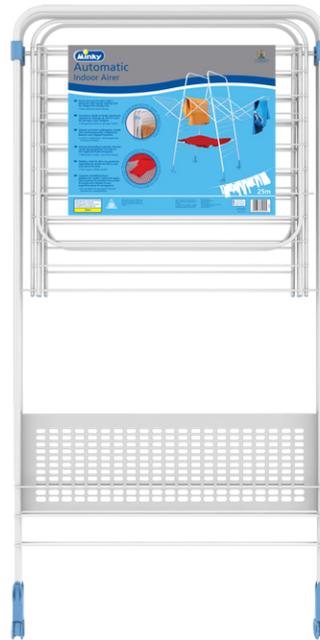

## WHEELS

Wheels allow easy positioning when loaded

## COMPACT FOLDING

Makes storage easier and more convenient

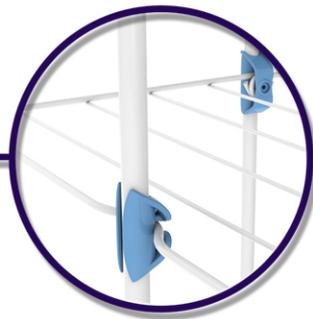

15m (50ft) tower...

A big product in a small box. 15m - 50ft of drying space with multi position shelves, ideal for large or long drop items

**ADJUSTABLE SHELVES**

Multi-positional shelves for long drop items

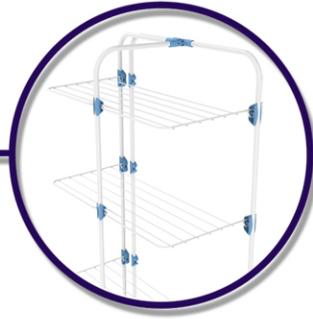

**WHEELS**

Wheels allow easy positioning when loaded

**FOLDABLE SECTIONS**

Foldable sections allow the product to fit in small spaces

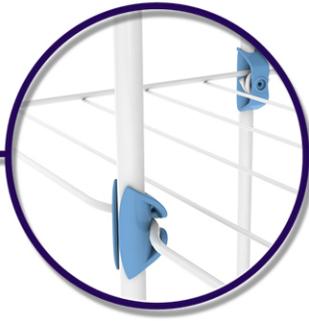

30m (98ft) tower...

A big product in a small box. 30m - 98ft of drying space with multi position shelves, ideal for large or long drop items

### ADJUSTABLE SHELVES

Multi-positional shelves for long drop items

### WHEELS

Wheels allow easy positioning when loaded

### CORNER HANGERS

Removable corner hangers for long drop items

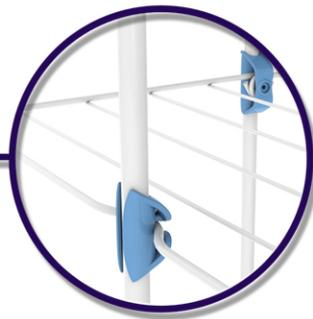

40m(131ft) tower...

40m - 131ft of drying space with multi position shelves, ideal for large or long drop items

**ADJUSTABLE SHELVES**

Multi-positional shelves for long drop items

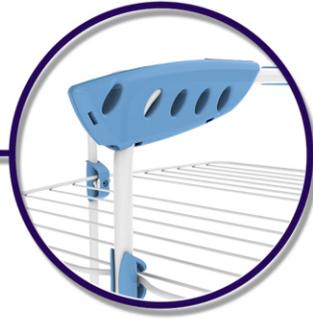

**WHEELS**

Wheels allow easy positioning when loaded

**CORNER HANGERS**

Removable corner hangers for long drop items

Adjustable overbath ailer with 9.5m - 31ft of drying space. Ideal for drying delicate fabrics

## SECURE FEET

Provide grip of any bathroom surface

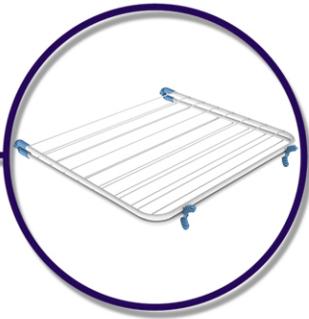

## ADJUSTABLE HINGE

2 Piece plastic joints give smooth reliable operation

## COMPACT FOLDING

Folds flat for easy storage

# Multi-dry Overbath...

Adjustable overbath airer with flip out arms and 13m - 42ft of drying space. Ideal for drying delicate fabrics. Doubles up as a stand alone airer for smalls

## SECURE FEET

Provide grip of any bathroom surface

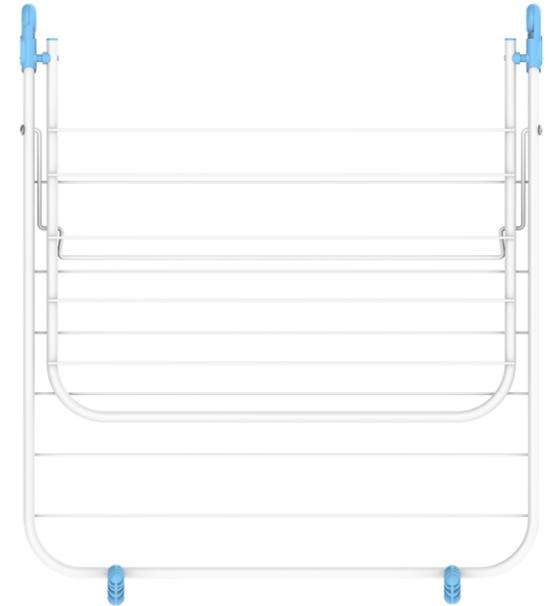

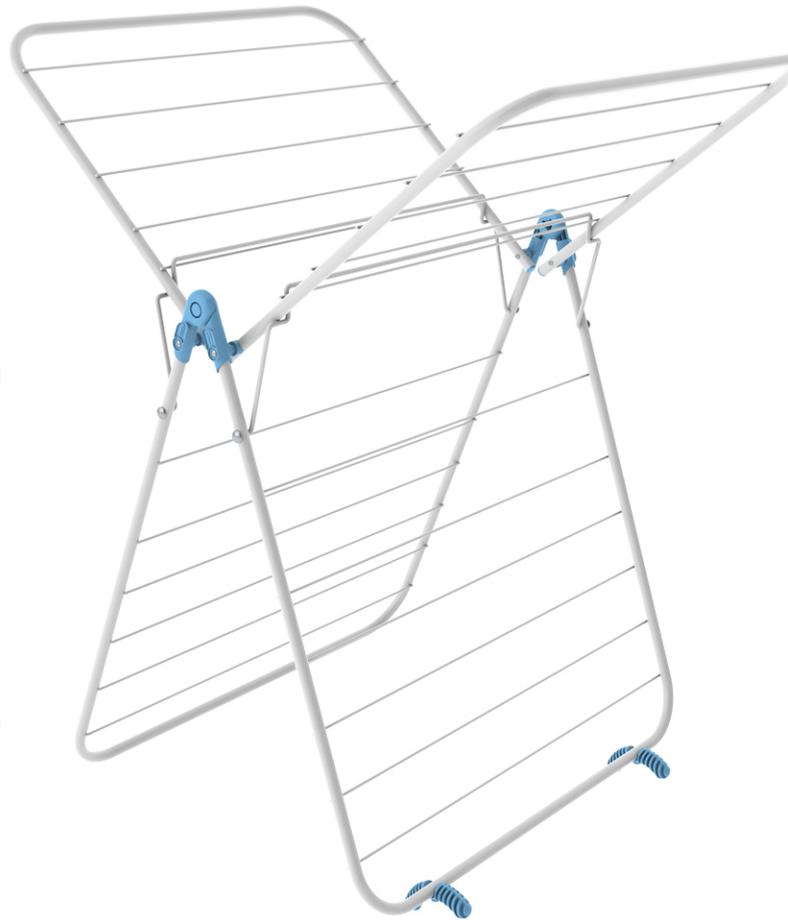

## ADJUSTABLE HINGE

2 Piece plastic joints give smooth reliable operation

## LOCKING MECHANISM

Secure locking mechanism provides a sturdy product for out of bath use

Stable and strong 18m - 59ft x-tender with flip out arms.  
Ideal for drying large items such as towels and bedding

### FLIP OUT ARMS

Provides extra drying space for longer drop items

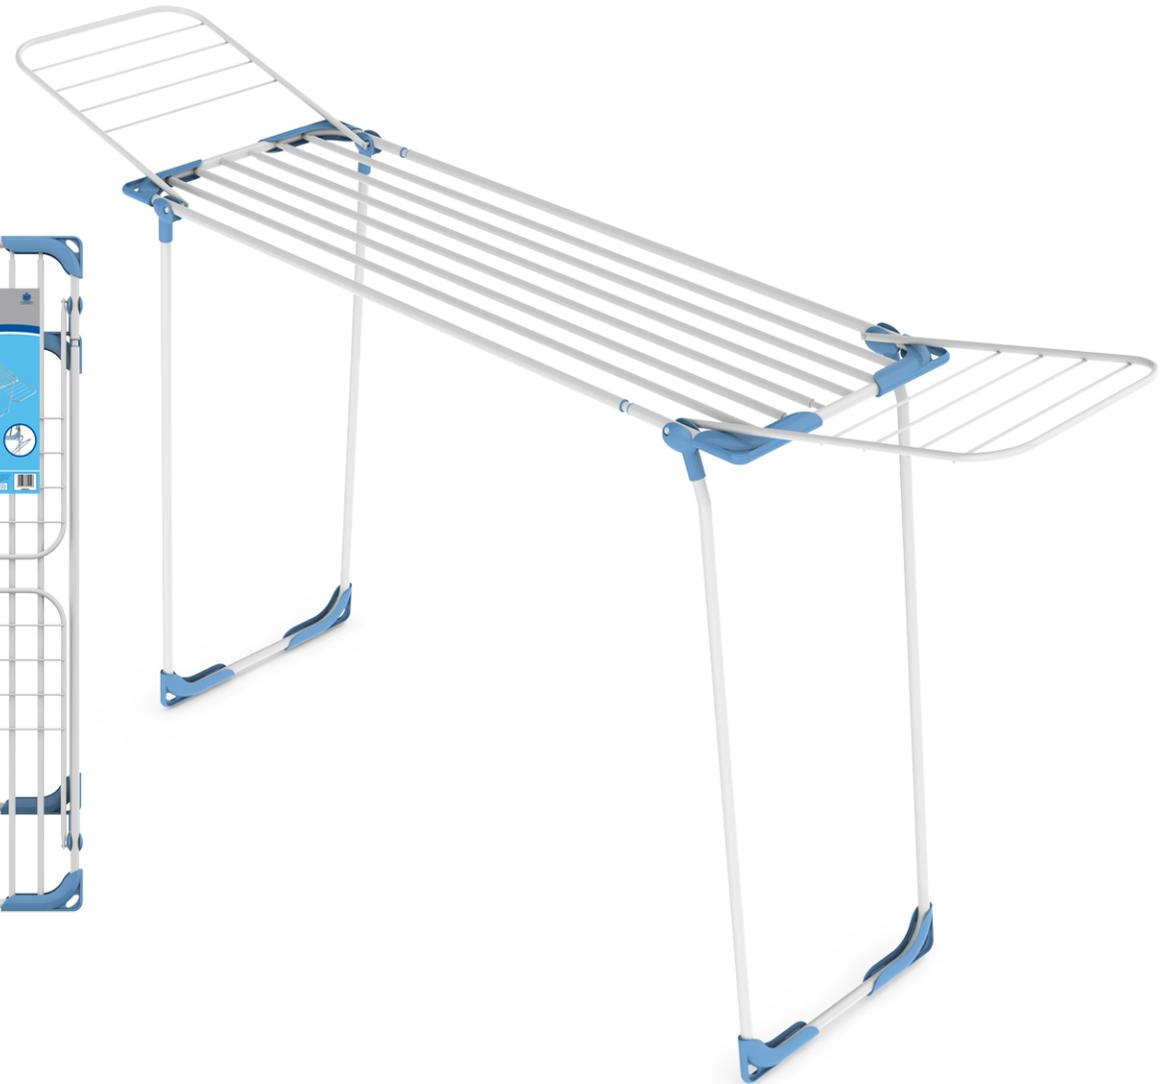

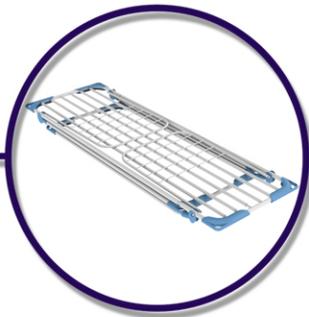

### CORNER HANGERS

Designed for coat hangers and long drop items

### COMPACT FOLDING

Folds flat for easy storage

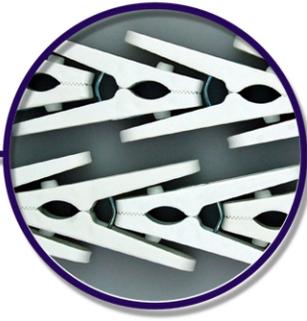

# 4 Line Indoor Reel...

4 retractable washing lines provide 12m of drying space. Ideal for indoor drying

## CLIP PEGS

Includes free line pegs for hanging garments

## RETRACTABLE MECHANISM

Manual reel system

## HANGING HOOKS

Ideal for hanging towels

Stable and strong entry level 14m - 46ft 3-tier with Auto Lock mechanism

### CORNER HANGERS

Designed for coat hangers for long drop items

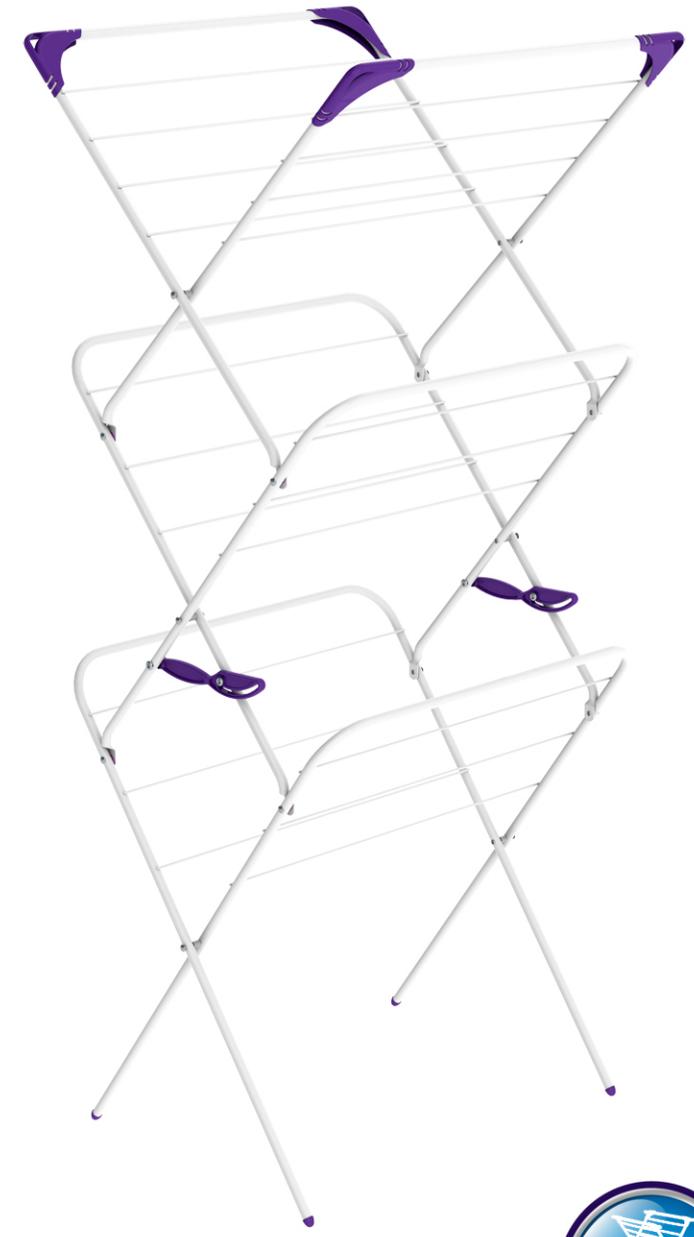

### AUTO LOCK MECHANISM

Simple, safe and easy to use

### COMPACT FOLDING

Folds flat for easy storage

Stable and strong entry level 14m - 46ft x-wing

### CORNER HANGERS

Designed for coat hangers for long drop items

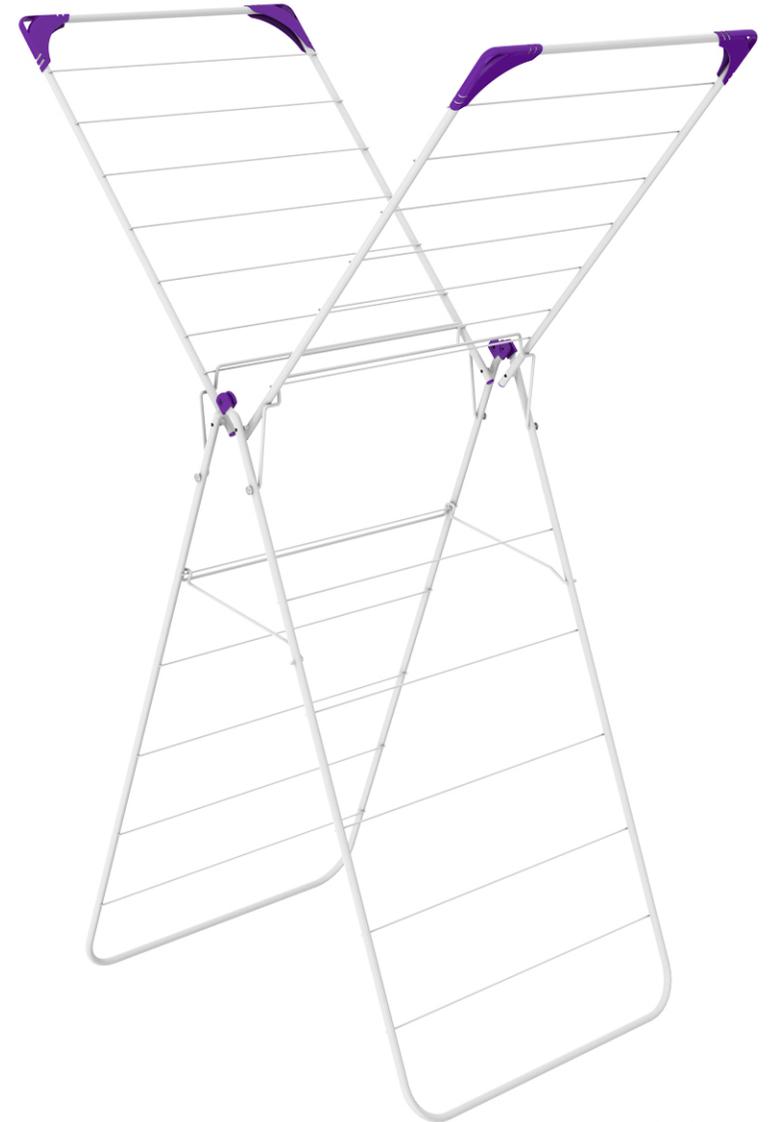

### ADJUSTABLE ARM HEIGHT

4 adjustable arm height settings

### COMPACT FOLDING

Folds flat for easy storage

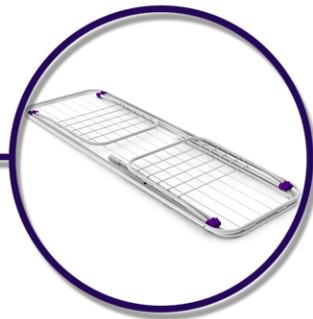

Entry level strung ainer with 14m - 46ft of drying space

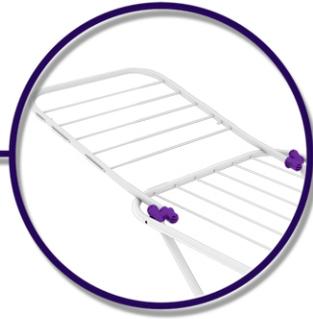

### COMPACT FOLDING

Designed for coat hangers for long drop items

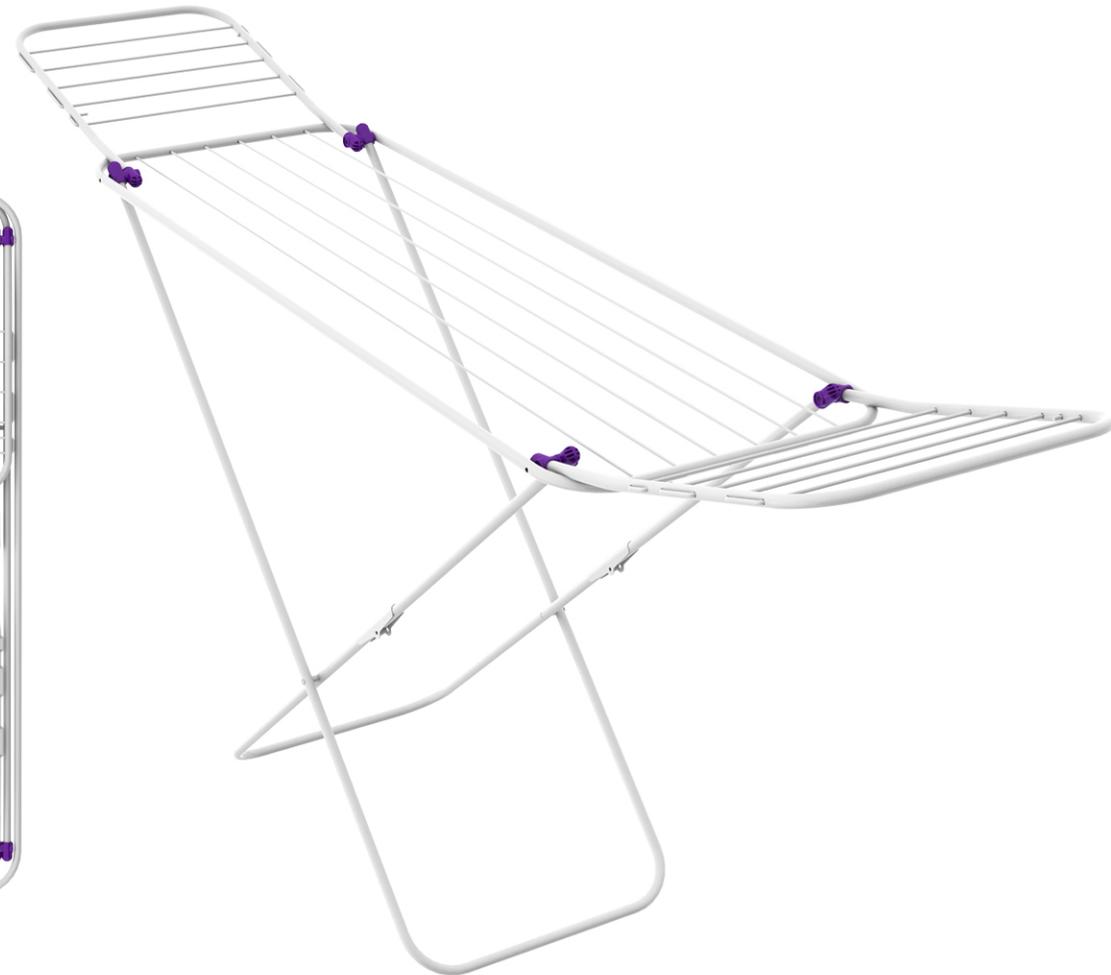

### FLIP OUT ARMS

4 adjustable arm height settings

### HI-TENSION LINE

Hi-tension line reduces product weight for easy positioning

Lightweight tubular gate ainer with 6m - 20ft of drying space

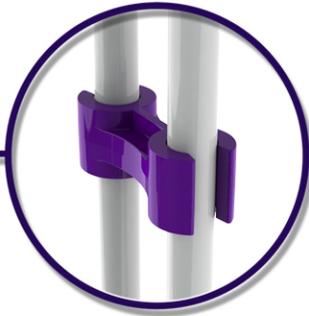

### NON-SLIP FEET

Ruberised non slip feet for good grip on all floor types

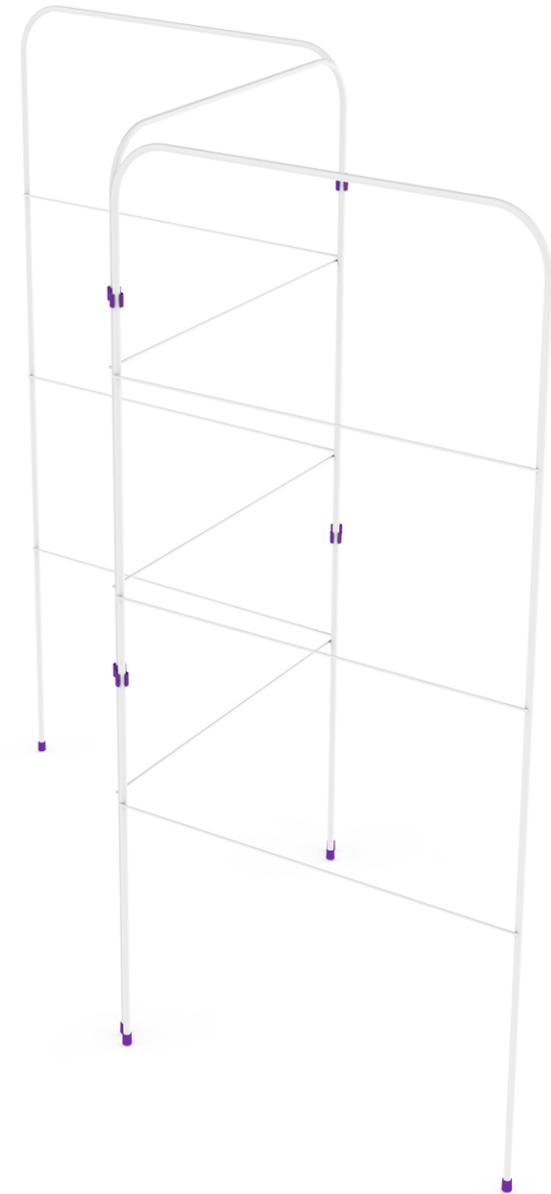

### ADJUSTABLE

Removable clips allow the ainer to be easily reconfigured

### TUBULAR CONSTRUCTION

Tubular sections reduce product weight

Aero balls tumble drying aid, 2 pack  
Available in purple and green

### FASTER DRYING

Air fins increase air movement and separate fabrics to reduce drying time

### SOFTER FABRICS

The balls massage fibres to increase their softness. No need for chemicals

### REUSABLE

Tough and durable design for repeated usage

# OUTDOOR AIRING

Britain's No.1  
Tennis Racket Manufacturer

## **Problems With Rotary Airers**

*There are a number of common problems that run throughout a wide range of Rotary Airers currently in the market. These problems can put off new customers and detract from the satisfaction existing customers get from their purchase.*

### **Problems**

#### **Mechanisms**

- Too much force required
  - Flesh traps
- Complicated, fiddly two handed operation
- Friction reliant systems fade over time
  - Lack of tension control
- Loss of tension in bayonet systems
- Unclear how to operate

#### **Lines**

- Tangling
- Loss of tension
- Stretching of lines
- Snagging, cutting and wearing on the arms

#### **Construction**

- Cheap surface treatments lead to corrosion
- Low spec components reduce cost but make products weak and dangerous

## Easy Breeze

The Easy Breeze range was developed to eliminate these problems in the small to medium rotary ailer category...

### Solutions

#### Mechanisms

- No touch one way ratchet requires minimal force
- Comfortable sculpted handle with no flesh traps
  - Obvious simple, one handed operation
- Positive engagement does not fade over time
- 8 position locking system allows accurate control of tension

#### Lines

- Classic arms individually strung to avoid loss of tension, tangling and stretching.
- Classic arms have rounded holes to eliminate line snagging, cutting and wearing

#### Construction

- All steel components are galvanised or zinc plated
- Each individual product configuration is tested to relevant loading limits to ensure performance and safety
