

# Stainless Steel Cleaning Cloth

- Specially impregnated cloth.
- Restores the natural shine.
- Smear-free finish.

The fast and effective way to remove soiling and residue from stainless steel products and surfaces.

**WARNING:** Test on an inconspicuous area before use.

**Instructions for use:** Rub the dry cloth over the surface. Heavier soiling can be removed using a damp corner of the cloth, then polishing over it using a dry part of the cloth.
